

GOLF COURSE & DRIVING RANGE EQUIPMENT

2019 - 2020

MAKING THE DIFFERENCE

Over the past years we have become ever more convinced of the need to achieve economies of scale in order to be able to continue to deliver the best possible customer experience.

Through our merger with Piguy Golf Challenge we have achieved what we feel is the right size, a B2B platform to rival any in the business and we have taken a big step into the Proshop business.

We have again drastically increased our stock levels whilst at the same time combining and optimising our product ranges so that we can continue to provide the best possible logistics services from our 6,000 sqm warehouse in The Netherlands and remain the #1 supplier in Europe.

You, as our loyal customers, have made it all possible and we are grateful for this; be assured we will continue to strive to be making the difference and be the ultimate one stop shop in our Industry!

We welcome the opportunity to be of service to you in the near future and, with pride, present you our 2019-2020 catalogue.

Enjoyable reading!

- MAINTENANCE -

TEAK MAINTENANCE

Teak wood, like any other wood, is a natural material and will react to the effects of the natural changes of the weather and the exposure to direct sunlight. Please find below a brief description of the natural colour and surface change of any teakwood product.

If untreated, teak wood will turn 'grey'. Also a natural product will 'work' and the grains of the wood will open slightly due to the effects of the weather. Most people find the natural grey colour the 'charm' of the product. A yearly treat with (very fine) sandpaper can be done to keep the surface smooth.

Teak wood can be treated to keep the colour more like the light, more brown, colour. It then needs to be oiled with Teakoil and should be treated every 3-4 months for maximum preservation of the wood or could even be laquered in any colour you may wish. Do not hesitate to contact us should you need more information regarding preservation of teak wood.

TECHNOWOOD MAINTENANCE

Technowood is a 'zero maintenance' product – it may need cleaning every once in a while; for this use a damp soft cloth – do not use soaps or anything else, just wipe it down and let it dry. It is as simple as that.

Technowood has a colour guarantee of 10 years and a life expectancy of 30 years!

HARDWOOD / IROKO MAINTENANCE

Unfinished product

All timber products will retain a certain amount of moisture content, therefore some crazing or minor surface checking may occur soon after installation.

This movement is totally natural and beyond our control. Any movement that may occur is usually confined to the first year and in no way affects the suitability of the wood. Maintenance of untreated hardwood is the same as for Teakwood – see above.

Finished product: Finishing Process

The timbers are initially treated with Teknos Aquatop 2900 base coat stain. Once dry, the end grains are sealed to ensure maximum protection against moisture ingress. Finally, two topcoats of Teknos Aquatop 2600 are applied to achieve the maximum level of protection and colour.

After Installation

It is essential that all timber products be wiped down after any application of fertilisers or chemicals onto the course. Nitrogen based fertilisers, in particular, can burn through the protective coating in a matter of hours.

Maintenance Guidelines

The initial coating from our factory should last a minimum 12 months, however this is dependent on the location of the sign, specifically relating exposure to moisture, fluctuations in temperature, prevailing winds and excessive weather. - the only other maintenance required during this period is to keep the sign clean.

Ideally monthly, but at least once per year, all coatings should be washed with mild detergent and water to remove any surface marks, whilst being assessed for any damage or degradation that may require treatment.

In all cases, timber products should be checked periodically for 'damage', wear and tear. If the surface coating displays any damage, this will accelerate moisture ingress through the surface and subsequently cause possible degradation of the affected area.

If touching up or full repainting is required, a coating of Teknos Aquatop 2600 is preferred however a good quality proprietary external grade paint finish is acceptable. (Available from your local DIY store). If applied annually, the frames will continue to look good and perform as required.

Limitations

Local ground & climate conditions can vary greatly and must be considered by the installer for the effects on timber products. This information sheet is for general guidance only and all installations are the direct responsibility of the club or installer. No responsibility or liability can be accepted.

- TEE SIGNS -

TECHNOWOOD TEE SIGNS

The new Technowood is a product similar to wood but does not present the limitations of the wood itself; it is made out of recycled PVC & Fiberglass and finished with a surface film giving a full 10 year warranty on colour retention and an estimated life of 30 years! No maintenance required at all and endless product possibilities.

The main advantages:

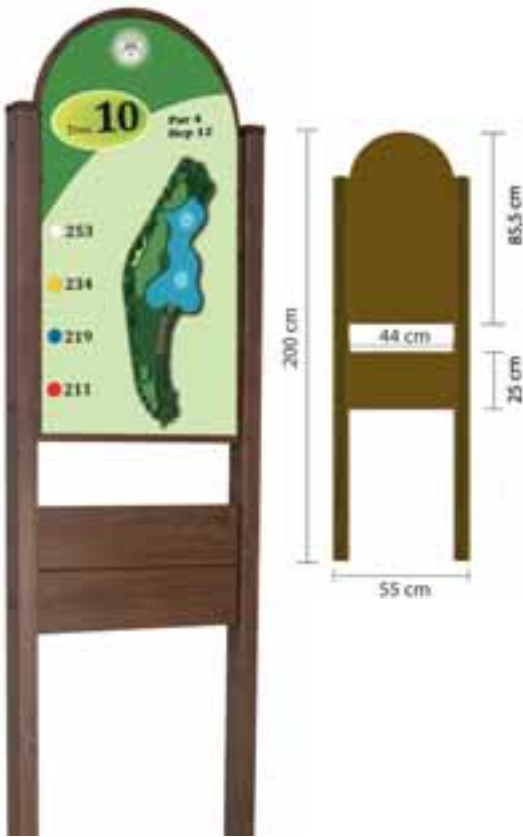

- Impact and pressure resistant.
- Resistant to water, humidity, heat and frost.
- UV resistant with a full 10 year colour retention guarantee.
- Absolutely maintenance free.
- Workability and fixing such as wood.
- Estimated lifetime of 30 years.
- Including sign.

- BALL WASHERS -

THE PAR AIDE BALL WASHER

Far and away, Par Aide

No matter which Par Aide model you choose, your decision won't be challenged.

A Par Aide ball washer says golf. It says you care about quality. It tells golfers this superintendent is conscious of all the details that make a course enjoyable to play.

- Hand assembled from the highest-quality materials.
- Powder-coated cast aluminium body and cover, stainless steel hardware, nylon bristles set in rubber for durability.
- Patented helical agitator assures thorough cleaning and dependability.
- Improved integrity of powder coating because of a new pre-treatment process and the use of foam rubber gaskets between cover and body.

DELUXE BALL WASHER

Our most popular model. Drain plug located in front for easy cleaning and flushing. Patented internal overflow sends excess liquid down the inside of the pipe stand.

- Capacity: 3,3 litres.
- Weight: 4,5 kg.

PAR AIDE BALL WASHERS OFFER:

- One moving part; easy to maintain and replace.
Unit can be completely flushed and cleaned by removing only two coated, stainless steel set screws.
- Tamper-resistant drain plug with gasket eliminates any chance of leaking.
- Aluminium castings allow for unlimited colour options and unmatched durability.
- Known and preferred by golfers over the world.

RECOMMENDED MAINTENANCE:

- For effective cleaning, use Ball Washer Detergent.
- Regularly refill and change water.
- Touch-up paint as needed (see page 81).

- BALL WASHER ENSEMBLES -

These are a few of the ensembles created to make ordering easy for you. With all of these options, you can place your ensemble design where it's most needed. You may opt to put an ensemble with a club washer on the tee of a par 3 hole, for instance, or one with a Trash Mate® double unit on the tee following the halfway house. Just start with the combination you like and pick a colour. If you don't see the combination you are looking for, simply mix and match by choosing the individual items that best fit your situation.

CAST TEE MARKERS

- Made by using a revolutionary technology that 'fuses' metal to high density urethane.
- Process uses less metal, less energy and eliminates virtually all toxic emissions into the air.
- Look, feel and perform like a foundry-poured sign but without the weight and the high production costs.
- Available in multiple sizes and shapes. Do ask for a custom quote.
- Custom logo at no extra cost.

- DIVOT MIX CONTAINERS -

DIVOT MIX CONTAINERS

The average golfer leaves about 12 ball marks during a typical round of golf. With a daily average of 160 rounds on a typical golf course, your greens will suffer 1.920 ball marks each day and 58.400 ball marks per month equaling to more than 700.000 ball marks each year. Further, consider that the average number of divots a typical golfer creates during a round of golf is 45. This equates to 7.200 divots a day or 2.628.000 divots each year.

To empower the golfers to repair their marks it is imperative to always have the proper tools on hand: a ball-mark repair tool, topdressing material and a scoop.

DIVOT PRO TEAK

- For waste and divot repair Pattison has created unique Teak bins with solid hinged lids for easy accessibility.
- Extremely robust.
- Teak.
- Size: 53 x 37 x 37 cm.

- VINYL COVERED FLAGSTICKS -

NEW: pink flagsticks for your ladies or girls tournament or your Pink Ribbon event. Also pink cups and flags available.

PAR AIDE VINYL COVERED

A full line of vinyl-covered flagsticks - your most durable flagstick option. These flagsticks are available in popular colour and striping patterns in both 1,3 cm and 1,9 cm models. All flagsticks come pre-applied with vinyl shrink-wrap coverings to save you time and money when considering a vinyl-covered flagstick option.

Some of the key features:

- Vinyl covered flagsticks last longer and perform better.
- Will not fade, splinter, crack, nick, scratch or stain.
- Protection against damage from abrasion, UV rays, chemicals and the elements.
- Pre-assembled for convenience, no heat gun use required.

PRISM FLAGSTICKS

The Prism flagstick is here to make laser distance measuring devices easier to use and more accurate on your golf course. The Prism flagsticks integrate the reflecting prisms into the body of the flagstick.

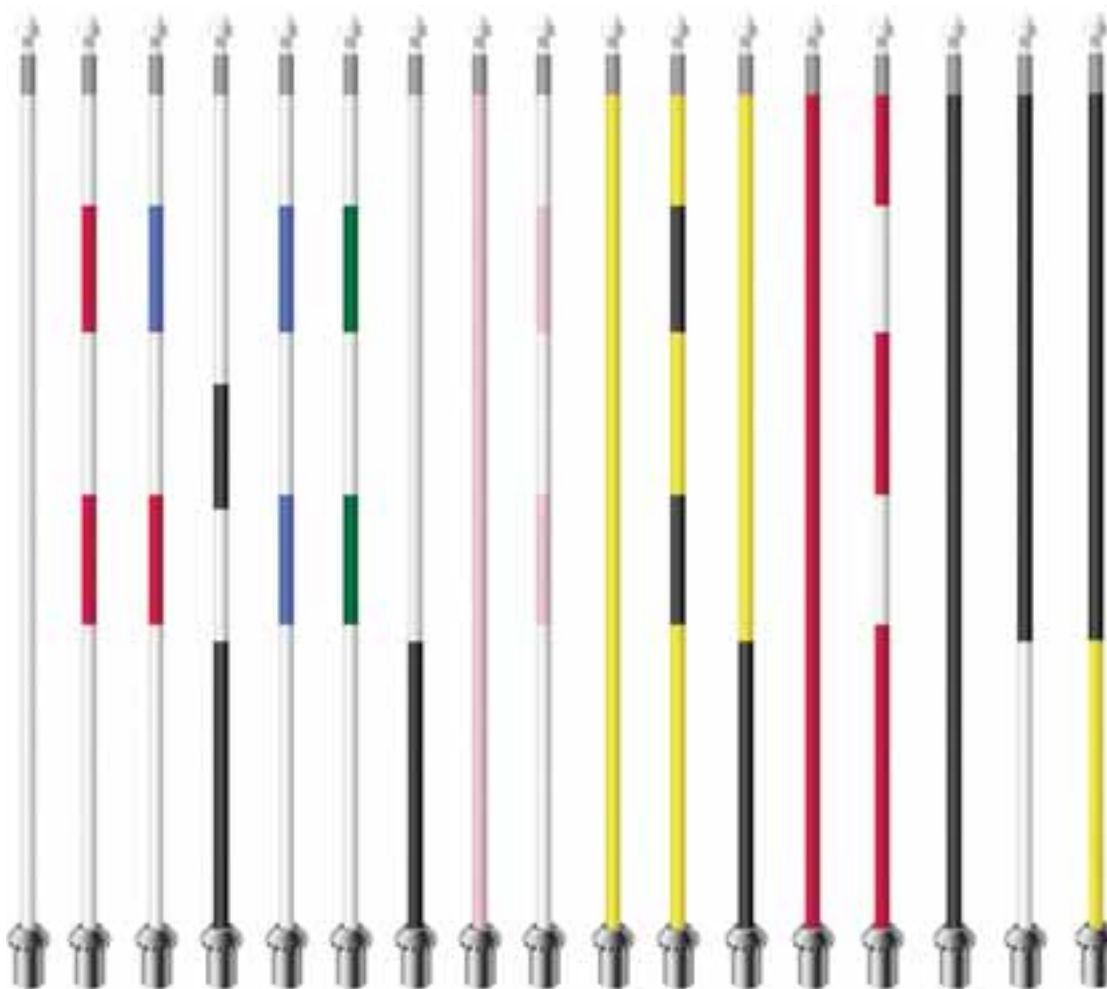

- For use with all laser golf distance measuring devices.
- Premium glass prisms for maximum accuracy.
- Prism flagstick (available in \varnothing 1,3 cm and \varnothing 1,9 cm tapered) are machine drilled, allowing precise insertion of prisms.
- All flagsticks are 2,29 mtr tall.

PUTT-SAVER TOURNAMENT FLAGSTICK

- Smaller diameter at the bottom of the cup than our regular tournament flagstick thus allowing more room for the ball to fall into the cup.
- In addition to the Putt-Saver Technology, this new flagstick will also come in two pieces – saving costs when shipping.
- With a reinforced steel rod and colour fully-absorbed throughout the flagstick, this is the new leader in the clubhouse.

QUICK LOCKING PIN

- Quick snap on system allows an easy exchange of tube lock flags.
- Fits any standard flag pole with US thread.
- Consists of brass base and plastic top (order separately).

Quick locking pin, Plastic top	P409225
Quick locking pin, Brass base	P409226

SMART-FIT PRO FERRULE

- Patented solution for pre-mature wear.
- Notched-ferrule flagsticks fall right into place every time.
- Sturdy, gusset-reinforced ribs allow dirt and sand to freely sift through the cup to eliminate sticking.
- 16 tapered flanges seat the ferrule and flagstick perfectly with the Smart-Fit Cup.
- Comes standard on all Standard Golf flagstick orders.
- To help prevent chipping cups or dulling the Smart-Fit finish, the new Smart-Fit ferrules have a polymer base. This base will help increase the life of your cups!

Smart-Fit Pro Ferrule	SG26512
-----------------------	----------------

- WOODEN FLAGSTICK -

ELEGANT ACCESSORIES FOR YOUR GREENS

If you are searching for the most exclusive flagstick available, you have just found the right source.

Perennial flagsticks are an elegant combination of hardwood and brass.

- They are hand crafted, and give years of service with proper care.
- Hardwood sticks, specially cured and finished to withstand any golf environment.
- Shown is a flagstick with a golden brown stain, protected with a clear acrylic topcoat.
- We can apply a no gloss penetrating sealer if you want a "Links" presentation.
- Fiberglass rods are available in black or white, and the stock ferrule is grooved aluminum. On request we can change the ferrule to any Pattisson, Par Aide or Standard Golf ferrule.
- Wood section is 3 cm in the middle and tapers to both brass connectors.
- Various models and color combinations available.

Perennial Tournament flagstick 2,13 mtr wood **DU37060**

Perennial Practice Green Marker wood **DU37062**

- MEASURING SYSTEMS -

RANGE PAL REFLECTORS

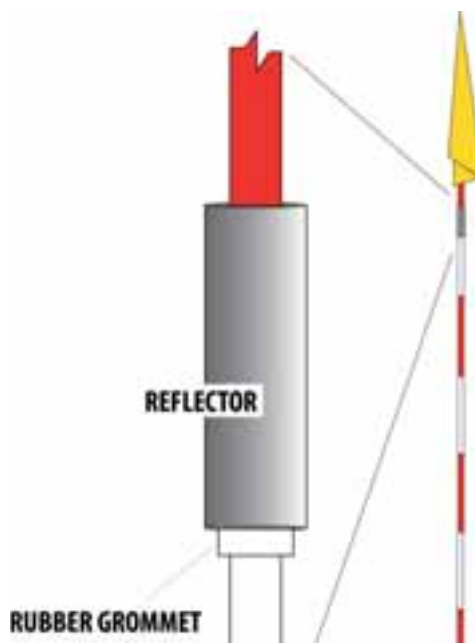

The Range Pal Reflector is the perfect, inexpensive and simple solution for accurate distance measurements!

This nifty little cylinder just slides over the flagpole and provides a reliable target, it has a large circular and highly reflective surface which reflects back to the laser rangefinder giving the correct distance to the hole.

No more problems with other background objects confusing the rangefinder and for a reasonable price you can provide members and guests with a handy tool on the golf course.

- Reflector 1,3 cm, set of 9
- Reflector 1,3 cm, piece
- Reflector 1,91 cm, set of 9
- Reflector 1,91 cm, piece

- RP2847**
- RP2848**
- RP2849**
- RP2850**

PINSITE REFLECTOR

- Convert any existing flagstick to give precise readings to laser distance measuring devices.
- Screws in place of acorn nut.
- Nylon thread prevents seizing to the top of the flagstick.

Pinsite reflector

- PLACEMENT MARKERS -

PLACEMENT FLAGS AND MARKERS

Our placement flags and placement markers make it easy to identify cup positions on the greens. Using a rubber grommet, the tubular flags or markers can be moved up or down to signify that the hole is at the front, centre or back of the green. The flags remind players to "Please Repair Ball Marks".

- Placement flags fit flagsticks up to 1,9 cm diameter.
- Placement markers fit flagsticks up to 1,3 cm diameter. (not available for FatSticks)

PLACEMENT FLAGS (SET OF 9 INCL. GROMMETS)

- Made of nylon.
- Weight: 0,23 kg.
- Size: 12 x 19 cm.

- PUTTING CUPS -

Nothing looks worse than a flagstick leaning to one side. This happens when the cup and ferrule get worn out due to windy conditions together with dirt, sand and grit that get in between the ferrule and cup. Often the flagstick gets stuck when golfers try to remove the flagstick from the hole.

WE HAVE THE SOLUTION!

With the Pattisson Pro Cup and the Pattisson ferrule the flagstick will always click into place, meaning that the flagstick cannot turn around in the cup. Also the grooved ferrule makes sure that the dirt and sand pass through the cup leaving the cup and ferrule clean.

No more sticking and flagsticks standing perfectly straight, as they should!

The bright white sleeve can be placed inside the aluminium cup to create a white hole cup, that has the traditional sound of an aluminium cup but without chipped paint. When the white sleeve gets dirty, just replace them.

Or why not personalise the cup with your logo? The ferrule also has the same effect in combination with the Pattisson plastic cup.

-PUTTING CUPS-

PATISSON ALUMINIUM PRO HOLE CUP

- Aluminium.
- Easy to set and fit.
- Pattison pro flagsticks fits perfectly.
- Flagsticks do not lean or turn in cup.
- No chipped paint.
- Size: 15 x 10,8 cm.

CA29414

- PUTTING CUPS -

Four distinctive styles, each with the hallmark of Par Aide products: durability, great appearance and impeccable quality. Your choices include the brightest white plastic cup in the industry, our traditional machined aluminium cup, and our patented Ever-White Cup, the one you've heard about with replaceable sleeves.

EVER-WHITE CUP

The patented Ever-White™ Cup has revolutionised the category by teaming an aluminium outside with a bright white plastic sleeve.

- No paint to chip, eliminating the need for stripping, sanding and painting.
- Easily replaceable sleeve stays tight in the cup during play.
- Resonates with the classic aluminium sound when the ball drops in.

PATENTED ALUMINIUM CUP COMPLETE WITH PLASTIC SLEEVE

- Meets all USGA regulations.
- Size: 15 x 10,8 cm.
- Weight: 0,9 kg.

- PUTTING CUPS -

**STANDARD
GOLF COMPANY**

ST2000™ NON-STICK CUP

The innovative ST2000™ design allows soil to pass down the sides and through the cup. This keeps the cup's socket dirt free and eliminates the ferrule from sticking. Contact points hold the flagstick firmly in place. A dirty ferrule just can not stick in the ST2000™.

PLASTIC ST2000™

- Brilliant white.
- High strength plastic cups.
- Molded with polymers that resist chemicals provide a brilliant, lasting finish.
- Meets all USGA regulations.
- Size: 15 x 10,8 cm.
- Packed 9 per carton.

SG18222

ALUMINIUM ST2000™

- Brilliant white finish.
- Creates a distinctive sound when ball drops.
- Bonderite coated aluminium cups.
- The most chip-resistant coating around.
- Meets all USGA regulations.
- Size: 15 x 10,8 cm.
- Packed 9 per carton.

SG18333

HYBRID ST2000™

- The popular ST2000 Smart-Fit Cup has a third configuration.
- A "hybrid", with an aluminium base and plastic molded walls, combines the best of our aluminium and plastic ST2000 models.
- The aluminium base gives maximum strength as the notched ferrule fits perfectly into place, eliminating twisting, sticking and sinking.
- Plastic molded cup walls prevent chipping and provide a long-lasting finish.
- An aluminium bottom allows for the "traditional sound" of a golf ball hitting the bottom of the cup.
- Meets all USGA regulations.
- Size: 15 x 10,8 cm.
- Packed 9 per carton.

SG18444

- PUTTING CUPS -

**STANDARD
GOLF COMPANY**

RIJI CUP

- Brilliant white.
- Made of rugged engineered grade polymers for resistance to chemicals.
- Tapered sides allow easy removal from the hole.
- Meets all USGA regulations.
- Size: 15 x 10,8 cm.
- Packed 9 per carton.

SG18200

ALUMINIUM CUP

- Easy to set and fit.
- Constructed of high grade aluminium.
- Stark white powder coated finish for better visibility.
- Corrosion resistant.
- Virtually unbreakable.
- Size: 15 x 10,8 cm.
- Packed 9 per carton.

SG18303

PRACTICE GREEN CUP

- Constructed of molded plastic.
- Stronger webs for eliminating warping and assuring a consistently round, easy setting cup.
- Precise inside tolerance holds the practice green marker securely in place.
- Size: 10 x 10,8 cm.
- Packed 9 per carton.

SG18100

ALUMINIUM PRACTICE GREEN CUP

- Bonderie aluminium with the most chip resistance coating around.
- Beveled bottom edge design makes them much easier to insert and remove.
- Size: 10 x 10,8 cm.
- Packed 9 per carton

PATTISSON TECHNOWOOD BENCHES

The new Technowood is a product similar to wood but does not present the limitations of the wood itself; it is made out of recycled PVC & Fiberglass and finished with a surface film giving a full 10 year warranty on colour retention and an estimated life of 30 years! No maintenance required at all and endless product possibilities.

The main advantages:

- Impact and pressure resistant.
- Resistant to water, humidity, heat and frost.
- UV resistant with a full 10 year colour retention guarantee.
- Absolutely maintenance free.
- Workability and fixing such as wood.
- Estimated lifetime of 30 years.

BENCH TECHNOWOOD 155 CM COMFORT

- Size: length 155 x width 70 x height 95 cm.

PORTABLE SPIKE BRUSH STAND

It offers the stability and cleaning effectiveness of a fixed-position brush stand, and yet you can move it to wherever it's needed.

- Patented design features base brushes and side brushes to thoroughly clean shoes.
- Holds steady on hard surfaces with integral rubber pads; spikes available to secure turf.
- Hunter Green and Medium Grey models available.
- Includes one set of message decals.
- Weight: 26,5 kg.

Brush stand, Hunter Green **PA512-11**
 Brush stand, Medium Grey **PA513-11**

Turf mounting spikes for brush stands **PA321-3**
 (set of 3)

Extra sets of usage decals (set of 3) **PA517**
 "Thank you for wearing alternative spikes"
 "Please clean spikes before entering"
 "Thank you for cleaning your shoes"

DELUXE SCRUSHER AND SCRUSHER

- Three separate bottom brushes now with softer, longer-lasting nylon bristles.
- Two side brushes with gentler bristles that don't scratch the sides of shoes.
- Cleans bottoms and side at the same time.
- The wider design of the Deluxe Scrusher offers more stability and extra space between lower bristles to prevent buildup.
- UV, environmentally safe, powder-coated finish included on the Deluxe model.
- Replaceable brushes.
- Optional equipment: 15 cm stakes for anchoring the Scrusher in asphalt, 46 cm stakes for anchoring the Scrusher in turf.

- CLEANING SYSTEM -

ZELUP CLEANING SYSTEM

The Zelup cleaning system is a patented 2 in 1 cleaning and drying system for clubs, shoes and trolleys.

When the double trigger gun is locked in its first position it acts like a traditional spray gun attachment; when fully locked it becomes a vaporizing spray that propels very fine water drops.

The unique defragmentation system uses only 0,25 to 1 litre of water per minute (which is up to 40 times less than traditional systems!) and allows perfect cleaning and drying with only one gun.

The kit comes with a connection box, hose and spray gun with brush and needs to connect to a small compressor (not included) & water supply.

The guns are supplied in 2 versions; the heavy duty (industrial version) in aluminium and the country club version in polycarbonate.

KIT ZELUP SPRAY INCLUDING CONNECTION BOX + HOSE + GUN + BRUSH - STICK AND BODY IN ALUMINIUM.

Zelup Kit with 2 metre hose	DU49432
Zelup Kit with 2,5 metre hose	DU49433
