

TORO

TOPDRESSERS

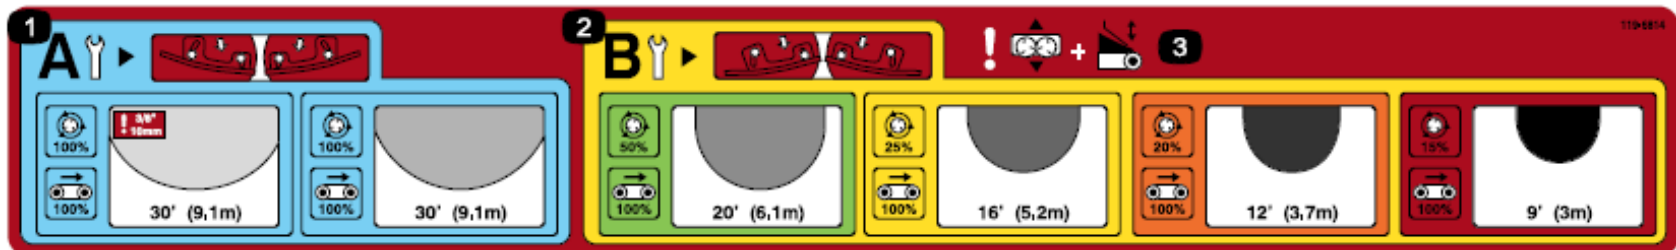

PP200/MH-400/TD1800/TD2500

Key Features

- Intuitive color-coded spread system
- Patented “drop zone” sliding twin spinner adjustment system

Advantages

- Eliminate guess work and get consistent repeatable results
- Choose from ultra-light dustings to ultra-heavy aeration hole filling applications and anything in-between to meet your need

Key Features

- Wireless Controls
- Walking Beam Suspension

Advantages

- Make real time adjustments to belt and spinner speed from up to 100 yards away and store settings for future use
- Keep all four wheels on the turf even in rolling terrain

Key Features

- Spring-loaded Gate Control
- Hydraulic Drive System
- Seamless V-Pattern Belts

Advantages

- Hold the gate firmly in position while allowing rocks or debris to pass without jamming
- Reduce maintenance that is inherent with mechanical drive mechanisms
- Obtain consistent spread and performance even with fine broadcast rates
